## CHARACTER CLASSES

There are many new character classes to be found in the *Viking Saga* campaign. The current classes available are: Berserker, Leech, Thane, and Warrior.

# BERSERKER

Fierce Norse fighting-men, shield-biter. You know no fear and charge into battle with a wild roar. Many think you are insane, and they could be right, but you know Valhalla is your eternal reward for your courage.

*“they often fought without mail, that is, in their bare sarks. They were huge and strong but ugly to behold, unkempt, unwashed, surly and bullying. In battle a madness came upon them; they howled, foamed at the mouth, grew swollen and purple in the face, gnawed the rims of their shields, and rushed forward like angry aurochs. Then their strength was such that no ordinary man could stand before them. It was said that iron would not bite on them, either. Truth was, the wounds they got, save for the deepest, hardly bled and closed up almost at once. After the rage was past, they were weak and shivery. By that time, however, most who had tried to fight them would be dead or fled.*

*Goodfolk loathed berserkers.... and feared them.”* –Poul Anderson *“Hrolf Kraki’s Saga”*
